

DISCIPLINE WITH DIGNITY

(A Parenting Night)

As children mature and begin to move through new developmental stages, our discipline techniques and strategies need to change accordingly. At what age and in what way is 'time-out' effective? How can we involve our children in decision making? Many people find themselves parenting in the way in which they, themselves, were brought up. With so many options available today, and a wide range of very effective techniques, we have a choice. Whilst we don't necessarily want to be our child's best friend, it would be nice to think that our homes are a place of nurturing and modeling, where individuals act and are treated with respect.

"Discipline with Dignity" is a parent information seminar, looking at ways in which we can fulfill our role as parents, guiding and shaping our children in a positive, respectful and dignified manner

This parent information evening addresses the following issues:

- Discipline - 10 Secrets to Success
- The "HOT" issues (parent perspectives)
- Where things can go wrong
 - Discipline methods / Behaviour management
 - Developmental / Cognitive issues
- Systems that work
- Self-esteem and happiness
